

Every Child Deserves a High-Quality Learning Environment

Let's Get Kids Moving!

The Centers for Disease Control and Prevention reports:

- Childhood obesity has more than tripled in the past 30 years.
- 1 of 3 children are obese or overweight before their 5th birthday.
- Obese children are more likely to have high blood pressure, high cholesterol, and type 2 diabetes, which are risk factors for cardiovascular disease.

These activity kits offer hands-on activities to involve children in nutrition awareness, healthy eating activities and physical activity in every classroom from birth through age five, as well as activities for families to try at home.

Breastfeeding Kit

Building the bond between mother and child is important. This kit contains supportive breastfeeding materials including a Boppy® Pillow, Nursing Cover, a Breast feeding Resource book, children's book and a bottle warmer. The Boppy® provides ideal support for feeding, supporting, and holding infants. The children's book is a great introduction to breastfeeding. A nutrition poster is also included as a resource.

Family Style Dining Kit

Family style means that children are allowed to eat their meals and snacks in a manner that promotes the beneficial environment they might experience in their home, including activities that encourage decision making, self-help skills, sharing, and social skills through interaction with others. This kit features child size utensils and dining materials for 12 children. These lightweight polycarbonate plastic plates and bowls are scratch resistant and dishwasher safe and the utensils are durable stainless steel flatware.
